Profile

Cloud Operations Engineer with strong experience in Azure Cloud, Kubernetes, automation, CI/CD, system monitoring, and performance optimization. Skilled in maintaining scalable cloud infrastructure, implementing automation for operational efficiency, and ensuring high availability across critical systems. Adept at troubleshooting complex cloud environments, improving system reliability, and collaborating with engineering teams to deliver secure, cost-optimized cloud solutions. Passionate about building resilient architectures and driving continuous improvement.

Professional Experience

Site Reliability Engineer, *HYDROGEN PAYMENT SERVICE COMPANY LIMITED* 08/2024 – Present

- Designed and maintained CI/CD pipelines to automate deployment processes, ensuring safe and efficient delivery of code changes across microservices.
- Collaborate with cross-functional teams to optimize infrastructure, ensuring high availability, reliability and scalability of applications.
- Developed and maintained comprehensive monitoring and alerting systems for microservices using tools like Grafana, Prometheus, and Loki to ensure high availability and performance.
- Optimized microservice performance and reliability by implementing service-level objectives (SLOs) and service-level agreements (SLAs), and conducting regular chaos engineering exercises.
- Conducted regular performance tuning and optimization of microservices, databases, and infrastructure components to reduce latency and improve user experience.
- Implemented cost-efficient strategies for cloud resource utilization, balancing performance needs with budget constraints.

Technical Support Engineer, *TEKNOWLEDGE* 02/2022 – 08/2024

- Provided technical support for Azure cloud services including Virtual Machines, Active Directory, App Services, Networking, and Security.
- Performed advanced troubleshooting and root-cause analysis for customer-facing issues.
- Supported Linux and Windows Server systems, including serial console recovery and Hyper-V troubleshooting.
- Maintained detailed documentation to support knowledge transfer and faster incident resolution.

Cloud Support Engineer, *BIGBOT LIMITED* 02/2021 – 01/2022

- Provisioned and configured Azure VM servers for various client applications.
- Deployed applications through Azure App Services with integration to CI/CD source control.
- Supported clients on deployment challenges and provided first-line Azure troubleshooting.
- Participated in incident management and helped reduce service downtime through coordinated response efforts.

- Worked with Cloud Architects to build custom solutions addressing client-specific business needs.

Support Specialist, *UPWORK (Freelance)* 10/2017 – 01/2021

- Assisted clients with Azure Virtual Machine challenges and general cloud troubleshooting.
- Supported deployment tasks within the Azure portal and ensured stable application operations.

Networking Trainee, *NEW HORIZONS LIMITED* 10/2016 – 03/2017

- Assisted in configuring and maintaining routers, switches, and firewalls.
- Shadowed senior engineers to learn network design, implementation, and performance monitoring.
- Documented network changes and configurations for internal use.
- Gained hands-on experience with tools like Cisco Packet Tracer and Wireshark.

Education

Bachelors of Science Geology, *University of Ilorin* 12/2010 – 08/2015
Ilorin, Nigeria

Skills

Cloud Platforms
Microsoft Azure (VMs, App Services, Storage, Networking, AKS, AAD, Security).

Containerization & Orchestration
Docker, Kubernetes.

Security & Governance
Cloud Security, Access Management.

Operating Systems
Linux (Ubuntu, CentOS), Windows Server.

DevOps / Automation
Azure DevOps, Git, CI/CD, PowerShell, Bash, ARM Templates.

Monitoring & Observability
Prometheus, Grafana, Loki

Cost Optimization
Compute Storage Network Optimization.

Other Skills
Troubleshooting, System Administration, Scripting, Incident Response, Documentation.

Certificates

- Microsoft Certified: Azure Administrator Associate
- Microsoft Certified: Cybersecurity Architect Expert
- Microsoft Certified: DevOps Engineer Expert
- Microsoft Certified: Azure Security Engineer Associate
- Microsoft Certified: Azure Solutions Architect Expert
